Experience

University of Massachusetts, Amherst

9/00-present

Professor

Supervising graduate research in sprays, two-phase flow and teaching thermo-fluids courses. Awarded tenure and promoted from Assistant Professor in 2006. Graduate Program Director from 2009 to 2013. Promoted to Full Professor Sept. 2012.

University of Wisconsin, Madison

Summer 2013

Visiting Professor

Visiting the Nuclear Engineering and Engineering Physics Department

Massachusetts Institute of Technology, Sloan Automotive Lab

1/99-8/00

Visiting Scientist

Studied spray modeling, computational fluid dynamics (CFD), combustion, automotive fuel injection. Assisted in background research and proposal writing.

Co-founder of Convergent Thinking, LLC consulting firm

12/97-11/03

Owner

Helped to start a company that develops CFD software and spray models and performs CFD analyses. Though I divested in '03, the company still thrives under its new name, Convergent Science.

University of Wisconsin, Madison

8/93-12/98

Research Assistant, Lecturer, Post-doctoral researcher

Studied cavitation, boiling, high-speed nozzle flow, and sprays. Taught the energy systems lab and undergraduate heat transfer. Performed post-doctoral research on modeling, CFD, sprays, automotive fuel injection.

Stanford University

9/92-6/93

Research Fellow

Studied CFD, cloud formation, and experimental heat transfer.

Applied Research Associates, New England Division

6/92-9/92

Computer Programmer

Programmed in support of hydro-geologic analysis.

Argonne National Laboratory

6/90-8/90, 6/91-8/91

Student Researcher

Programmed in support of fluidized-bed combustion and magneto-hydrodynamics research.

Education

Ph.D. Mechanical Engineering at the University of Wisconsin, Madison

Minor in Nuclear Engineering

Dissertation: *Cavitation in Diesel Fuel Injector Nozzles*

Graduation: December 1997

M.S. Mechanical Engineering at Stanford University

Graduation: June 1993

B.S. Mechanical Engineering at North Carolina State University

Graduation: May 1992

Fellowships, Awards, and Honors

- Lewis F. Moody Award for Outstanding Original Paper in 2017 FED Conference, July 2018.
- Marshall Award for Best Paper at the 2016 ILASS North Americas Conference, May 2017.
- Norman Chigier Award for Reviewing Excellence, given by the American Editor-in-Chief of *Atomization and Sprays*, 2017.
- College of Engineering Outstanding Teacher Award, 2017.
- Appointed SAE Fellow, April 2017.
- Recognition of Excellence in Oral Presentation for “X-Ray Radiography and CFD Studies of the Spray G Injector,” SAE World Congress and Exposition, 2016.
- Recognition of service to the Institute of Liquid Atomization and Spray Systems, 2015.
- Ralph R. Teetor Educational Award, Society of Automotive Engineering, 2009.
- Student-selected Mechanical Engineering Advisor of the Year, 2008.
- SAE Long-time Member Service Award, 2008.
- Fellowship from the Institute for Advanced Studies, University of Bologna, 2006.
- Best Paper in Conference, ASME Internal Combustion Engine Division, 2003.
- College of Engineering Commencement Speaker, 2003.
- Student-selected Mechanical Engineering Professor of the Year, 2003.
- Student-selected Mechanical Engineering Advisor of the Year, 2003.
- Office of Naval Research Young Investigator Award, 2002.

- Semester Tuition Award from Chevron, University of Wisconsin, 1994.
- Myers-Uyhara Scholarship, University of Wisconsin, 1993.
- Departmental Research Fellowship, Stanford University, 1993.
- Graduated Magna Cum Laude, North Carolina State University, 1992.
- John T. Caldwell Alumni Scholarship, North Carolina State University, 1988-1992.
- University Scholars Program, North Carolina State University, 1988-1992.
- National honor society of Phi Kappa Phi, NCSU, 1991-1992.
- North Carolina Fellows Program, NCSU, 1990-1992.

Grants

Schmidt, D. (PI), "ICE-net Consortium," from Siemens, Cummins, AVL, Convergent Science, and Mathworks, 2019-2021, \$270,000.

Park, Chul (PI), Daehwan Rhu, David P. Schmidt, John E. Tobiason , "PFI-RP: Developing Light-Controlled Mixing to Advance Energy Efficient Wastewater Treatment by Oxygenic Photogranules," NSF, 2019-2022, \$550,000.

Schmidt, D. (PI), Chen, Wen, Dimitrakopoulos, Christos, Grosse, Ian, Hyers, Robert, Lee, Jae-Hwang, Maroudas, Dimitrios, Nonnenmann, Stephen, Ramasubramaniam, Ashwin, Rothstein, Jonathan, Schiffman, Jessica, Watkins, James, "Intelligent Materials by Design," ARL, 2018-2020, \$1,000,000.

Schmidt, D. (PI) Coughlin, Edward, Dimitrakopoulos, Christos, Grosse, Ian, Hyers, Robert, Lee, Jae-Hwang, Maroudas, Dimitrios, Nonnenmann, Stephen, Ramasubramaniam, Ashwin, Rothstein, Jonathan, Schiffman, Jessica, Watkins, James, "Cold Spray: Basic Physics and Applications," ARL, 2017-2019, \$900,000.

Schmidt, D. (PI), "Coupling Internal Flash Boiling Flow to External Spray Modeling," Toyota, 2017-2018, \$115,411.

Schmidt, D. (PI), and M. Lackner, "Application of an Advanced Adaptive Mesh Paradigm to Wind Energy Simulations (expanded)," Convergent Science, unrestricted grant, 2017, \$37,000.

Schmidt, D. (PI), and M. Lackner, "Application of an Advanced Adaptive Mesh Paradigm to Wind Energy Simulations," Convergent Science, unrestricted grant, 2017, \$34,000.

Schmidt, D., "Literature review for spray correlations," Bete Fog Nozzle Unrestricted Grant, 2017, \$2,234.

Schmidt, D., "Flash Boiling Fuel Injection Modeling," Ford Motor Company Unrestricted Grant, 2017, \$70,000.

Schiffman, J., A. Briseno, C. Dimitrakopoulos, I. Grosse, J. Klier, J.-H. Lee, D. Maroudas, A. Ramasubramaniam, D. Schmidt, J. Watkins, "Multifunctional cold spray coatings," Army Research Lab, 2016-2017, \$750,000.

McDonell, V.(PI), Scott Brown, David P. Schmidt, "Cavitation Simulations for Fuel Insensitive Fuel Injection (SBIR Phase 2)" AFRL, 2017-2018, \$203,770 to UMass.

Lackner, M. (PI), S. Arwade, D. Schmidt, “Simulating breaking waves and estimating loads on offshore wind turbines using computational fluid dynamic models,” Bureau of Offshore Energy Management, US Dept. of Interior, 2016-2018, \$144,342.

Schmidt, David P , C. Dimitrakopoulos, J-H Lee, J. Lee, D. Maroudas, A. Ramasubramaniam, J. Rothstein, “Collective Thermomechanical Processing of Materials by Design,” Army Research Lab, 2016-2017, \$399,999.

Schmidt, David (PI), “Needle dynamics and LES Simulation in GDI Calculations,” General Motors, 2016, \$50,000.

Schmidt, D. (PI), and M. Lackner, “Application of an Advanced Adaptive Mesh Paradigm to Wind Energy Simulation,” Convergent Science, unrestricted grant, 2016 \$22,462.

Schmidt, D. (PI), “Spray Combustion Consortium: Engineering-level Modeling of Gasoline and Diesel Fuel Injection,” sub. to Sandia National Laboratory, 2016-2018, \$448,000.

Schmidt, D. (PI), “Continuation of Flashing Fuel Spray Modeling,” Ford Motor Company, unrestricted grant, 2015, \$69,313.

McDonell, V.(PI), Scott Brown, David P. Schmidt, “Cavitation Simulations for Fuel Insensitive Fuel Injection (SBIR Phase 1),” AFRL, 2015-2016, \$39,850 of \$150,000.

Schmidt, David (PI), D. Maroudas, A. Ramasubramaniam, Schiffman, J. Rothstein, “Cold spray of nano-particle biocidal coatings and modeling of graphene polymer composites,” ARL, 2014-2015, \$200,000.

Schmidt, David (PI), “Development of an Integrated CFD Approach for Internal Nozzle Flows,” General Motors, 2014-2015, \$71,334.

Schmidt, David (PI), “Flashing Fuel Spray Modeling,” Ford Motor Company, unrestricted grant, 2014, \$50,000.

Fisher, Donald (PI) and David P. Schmidt, unrestricted grant, Convergent Science, 2014, \$6,000

Schmidt, David (PI), “Development of an Integrated CFD Approach for Internal Nozzle Flows and Sprays using a Compressible Two-Phase Flow Approach coupled with Eulerian-Lagrangian-Spray-and-Atomization (ELSA) Model,” 2013-2014, \$200,000

Schmidt, David (PI), Jonathan Rothstein, Robert Hyers, “Exploration of Novel Cold Spray Applications,” ARL, 2013-2014, \$180,000

Schmidt, David (PI) and Robert Hyers, “Initial Cold Spray Modeling Investigation,” ARL, 2013-2014, \$75,000

Schmidt, David (PI), “Heat Transfer and Surface Roughness Modeling in Cavitation and Flash-boiling Simulations”, General Motors, 2012-2013, \$64,000

Schmidt, David (PI), “Effects of Non-Condensable Gasses in Cavitation and Flash-boiling Simulations”, General Motors, 2012-2013, \$118,647

Schmidt, David (PI), “Compressibility Effects in Cavitation and Flash-boiling Simulations”, General Motors, 2012-2013, \$73,742

Jonkman, Jason (PI) (NREL), M. Lackner and D. Schmidt (UMass) , P. Sclavounos (MIT), “Floating Platform Dynamics Models,” DOE, 2012-2016, \$193,000 to UMass of \$1.1M.

Patek, Sheila (PI), Modarres-Sadeghi, Yahya, Schmidt, D. Armstrong Fund for Science, "The evolution of cavitation in biological systems and biologically-inspired design," 2011-2012, \$40,000.

Schmidt, David (PI), "Modeling the internal flow of fuel injector and its impact on spray structure, mixture formation, ignition and combustion in IC engines," General Motors, 2011-2013, \$258,951.

Knaus, Darin (PI) (Creare Inc.) and Phillips, S., Schmidt D., "SBIR Phase I: Improved Fuel Spray Models for Augmentors," Air Force, 2009, \$30,000 of \$100,000 (performed as consulting with Mr. Nat Trask)

McDonell, Vince (PI) (ERC) and David P. Schmidt, "Modeling Multi-Component Bubble Growth," 2009-2011, \$30,000

Schmidt, David (PI), "Improvement and Exercising of a New Flash-boiling Model Capability", General Motors, 2008-2010, \$124,000

Bergander, Mark (PI) (Magnetic Development Inc), Schmidt D. " STTR Phase II: Condensing Ejector for Second-Step Compression in Reversed Rankine Cycle," 2008-2010, \$243,467 of \$500,000.

Heister, Stephen (PI) (Purdue), William E. Anderson, Carlos M. Corvalan, Osvaldo H. Campanella, Robert P. Lucht, Charles L. Merkle, Paul E. Sojka, Steven F. Son, David P. Schmidt, T. J. Mountzarias, Terrence R. Meyer, "Spray and Combustion of Gelled Hypergolic Propellants," DoD MURI, 2008-2014, \$1M to UMass of \$6.25M.

Meyer, Terrance (PI) (Iowa State), Schmidt D., "STTR Phase II: Imaging sprays in harsh environments," AFOSR, 2006-2007, \$85,000 of \$500,000.

Knaus, Darin (PI) (Creare Inc.), Phillips, S., Schmidt D., "SBIR Phase I: Composite Models of Sprays in Cross-Flow," ONR, 2007, \$22,000 of \$70,000.

Rothstein, Jonathan (PI) and Schmidt D., "Modeling and Experiments with Non-Newtonian Inks" Kodak, 2006-2007, \$100,000.

Fotache, Catalin (PI) (UTRC), Schmidt, D, J. Lee, "Validated Computational Tools for Low Emissions Supersonic Combustors using Superheated/Supercritical Fuels," NASA, 2006-2010, \$172,000 of \$634,000.

Schmidt, David P. (PI) "Modeling flash-boiling fuel injection," General Motors, 2006-2007, \$91,000.

Meyer, Terrance (PI) (Iowa State), Schmidt D., "STTR Phase I: Imaging sprays in harsh environments," AFOSR, 2006-2007, \$25,000 of \$100,000.

Bergander, Mark (PI) (Magnetic Development Inc.), Schmidt D. " STTR Phase I: Condensing Ejector for Second-Step Compression in Reversed Rankine Cycle," 2006-2007, \$65,000 of \$150,000.

Schmidt, David P. (PI), Perot, J. B., "SGER: Direct Numerical Simulation of Turbulent Drop Dispersion using Interface Tracking," National Science Foundation, 2003-2004, \$99,500.

Schmidt, David P. (PI), "Understanding Grid Dependency in Spray Calculations," General Motors, Inc., 2002-2003, \$42,000.

Schmidt, David P. (PI), "Direct Simulation of Primary Atomization," Office of Naval Research Young Investigator Award, 2002-2006, \$300,000.

Mitra, Peetak, Ph.D., in progress, project TBD.

Mohapatra, Chinmoy, Ph.D., in progress, project TBD.

Johlas, Hannah, Ph.D., co-advised by Prof. Matt Lackner, in progress, project TBD.

Hagshnehas, Majid, post-doctoral researcher, 2019-2021.

Service

Ad-hoc member, Department Personnel Committee, 2019-2020.
Graduate Committee, 2019-2020.
Chair, Department Personnel Committee, 2015-2016, 2017-2018.

Member of College of Engineering Committee to Revise Computer Services, 2012.
 Area Coordinator for Engine Combustion Network's Internal Flow Group, 2012-2014.
 Graduate Program Director of the Mechanical and Industrial Engineering Department, 2009-2013.
 College Personnel Committee, 2009-2011. Chair of CPC for 2009-2010.
 Board member of the Institute for Liquid Atomization and Spray Systems (ILASS), 2009-2014.
 Editor of the Institute for Liquid Atomization and Spray Systems (ILASS) newsletter, 2006-2008.
 Member of the Editorial Board for *Atomization and Sprays*, 2005-present.
 College Computing Services Committee, 2004.
 Advisor for the Supermileage Vehicle, 2002-2004, 2005-2010.
 Departmental Personnel Committee, 2002-2003.
 Session Chair and Organizer, ASME Internal Combustion Engine Section, 2001 and 2002.
 Faculty Advisor for the Student ASME chapter, 2001-2002.
 Supervised Undergraduate Researcher, HSSIP program, 2001.
 Space Allocation ad-hoc Committee, 2001.
 Undergraduate Committee, 2000-2002.
 Presented to Dean's Advisory Council, 2000 and 2003.
 Reviewer for *Journal of Fluid Mechanics*, *Intl. Journal of Numerical Methods in Fluids*, *Atomization and Sprays*, *Journal of Computational Physics*, *Journal of Applied Fluid Mechanics*, *Journal of Engineering and Power*, *Journal of Heat Transfer* and *Intl. Journal of Heat and Mass Transfer*, *Microfluidics and Nanofluidics*, *Rheologica Acta*, Society for Automotive Engineering Congress, American Society of Mechanical Engineering Internal Combustion Engine Div.
 Past proposal reviewer for DOE MICS and NSF Multiphase Flow directorate.

Invited Presentations

David P. Schmidt, Invited Presentation, “Accelerated DL representation of turbulent, reacting flow”, Artificial Intelligence for Robust Engineering & Science, AIRES 2: Machine Learning for Robust Digital Twins, January 19 – 21, 2021.

David P. Schmidt, Invited Presentation, “How the Experimentalists Launched a Revolution in Spray Modeling,” University of Cincinnati Mechanical Engineering Department, September, 2020.

David P. Schmidt, Keynote Address, “New Horizons in Energy Technology With CONVERGE,” Converge User Conference, Madison, WI, October 2018.

David P. Schmidt, "Topic 9: Internal Gasoline Direct Injection," Engine Combustion Network, Valencia, Spain, 2018.

David P. Schmidt, "Simulations of Flash Boiling Fuel Injection Using the Homogenous Relaxation Model," 19th Annual Internal Combustion Engine (ICE) Workshop hosted by Siemens Inc., Dearborn MI, May 2018.

David P. Schmidt, "Employment of Advanced Diagnostics in Internal Combustion Engines" Invited panel, SAE World Congress and Exposition, 2018.

David P. Schmidt, "ECN 5 Topic 8: Internal and Near Nozzle Flow Modeling Spray G," Engine Combustion Network Workshop, Detroit, MI, May 2017.

David P. Schmidt, "Validation of Internal Fuel Injector Flash Boiling and a Theory of Lagrangian/Eulerian Convergence as Demonstrated by STAR-CCM+," 18th Annual Internal Combustion Engine (ICE) Workshop hosted by Siemens Inc., Dearborn MI, May 2017.

David P. Schmidt, "Panel Discussion: Internal Flow of Automotive Injectors," ILASS Meeting, Dearborn, MI, 2016.

David P. Schmidt, "Understanding Anomalous Behavior in GDI Sprays Using CFD", 17th Annual Internal Combustion Engine (ICE) Workshop hosted by CD Adapco, Dearborn MI, 2016.

David P. Schmidt, "Detailed Simulation of Flash-boiling Fuel Injection", 16th Annual Internal Combustion Engine (ICE) Workshop, Dearborn MI, 2015.

David P. Schmidt, "Internal Flow Modeling Presentation," 3rd Engine Combustion Network Workshop, Ann Arbor, MI, 2014.

David P. Schmidt, "Multiphase CFD Research at UMass," RWTH Aachen, seminar, 2013.

David P. Schmidt, "The Philosophy and Practice of Multiphase CFD Research with OpenFOAM," keynote address, 1st New England OpenFOAM Workshop, June 2013.

David P. Schmidt, "Eulerian Modeling of High Reynolds, High Weber Number Two-Phase Flow," ASME FED Conference, Puerto Rico, 2012.

David P. Schmidt, "Flash- Boiling Channel Flow," ASME FED Conference, Puerto Rico, 2012.

David P. Schmidt, "Multi-scale Challenges in Multi-phase CFD," keynote speaker, Open Source CFD International Conference 2010, Munich, November, 2010.

David P. Schmidt, "Collision simulation of gelled hypergolic propellants," International Workshop on Numerical Methods in Non-Newtonian Fluid Dynamics, Northampton, MA, June, 2010.

David P. Schmidt, "Multiphase CFD Research With OpenFOAM," invited presentation, Institute for High Performance Computing," Singapore, December, 2009.

David P. Schmidt, "Engine Technologies: The Road Ahead," Embracing the Green Revolution: Impacts on the Transportation Profession, University of Massachusetts, Amherst, May 2008.

David P. Schmidt, "Recent Advances in Modeling Sprays in Crossflow," UTRC Workshop on Advancements in Modeling and Experimental Characterization of Atomization Processes, June 2007.

David P. Schmidt, "Numerical Methods for Two-Phase Flows," Institute for Advanced Studies, Bologna, March, 2007.

David P. Schmidt, "Recent Advances in the Modeling of Direct Injection," Ferrari Corporation, Italy, December, 2006.

David P. Schmidt, "A Ranking of Recent Advances in Modeling Direct Injection", plenary speaker at "ICE&V Workshop on Control, Simulation and Modelling of Engine and Vehicles," Naples, December, 2006.

David P. Schmidt, "Numerical Methods for Two Phase Flow Simulation," University of Bologna, Bologna, October, 2006.

David P. Schmidt, "Numerical Methods and Algorithms for Two Phase Flow Simulation," University of Rome Tor Vergata, Rome, September, 2006.

David P. Schmidt, panel discussion on Contributions of Spray Research to the Design Process," ILASS Conference, Toronto, April 2006.

David P. Schmidt, "Simulating the Dense Spray Core," WPI, March 2006.

David P. Schmidt, "Simulation of Atomization," Chemical Engineering Seminar, UMass, Amherst, 2003.

David P. Schmidt, "Recent Advances in Spray Modeling for Combustion Applications," Mechanical Engineering Seminar, UMass, Amherst, 2002.
