Get Started in the UMass Engineering Management MS Program - Online

- **Start** taking courses **this summer** with your choice of **online** courses:
  - Engineering core and elective courses:
    - MIE 754: Engineering Economic Decision Making – Prof. Baker
    - MIE 651: Advanced Production Planning and Control – Prof. Muriel
    - MIE 597EP: Project Management – Prof. Wilson
    - MIE 697U: Strategy-Driven Engineering Innovation – Prof. Wilson
    - MIE 573: Engineering Windpower Systems – Prof. Manwell
  - A number of electives in SOM:
    - SCH-MGT 633: Financial and Managerial Accounting
    - SCH-MGT 650: Business Data Analysis and Statistical Methods
    - SCH-MGT 680: Leadership and Organizational Behavior
    - For a full listing go to: [https://www.umass.edu/cpe/classes](https://www.umass.edu/cpe/classes)

For more information please visit [https://mie.umass.edu/engineering-management-ms](https://mie.umass.edu/engineering-management-ms) or contact Prof. Ana Muriel, Program Director, Engineering Management, [muriel@umass.edu](mailto:muriel@umass.edu).

Be an engineering **leader**!
- Broaden your skill set
  - Management and leadership
  - Systems engineering
  - Project management
  - Engineering decision-making
- Deepen your engineering expertise
